

SCHOLARSHIP OPPORTUNITIES

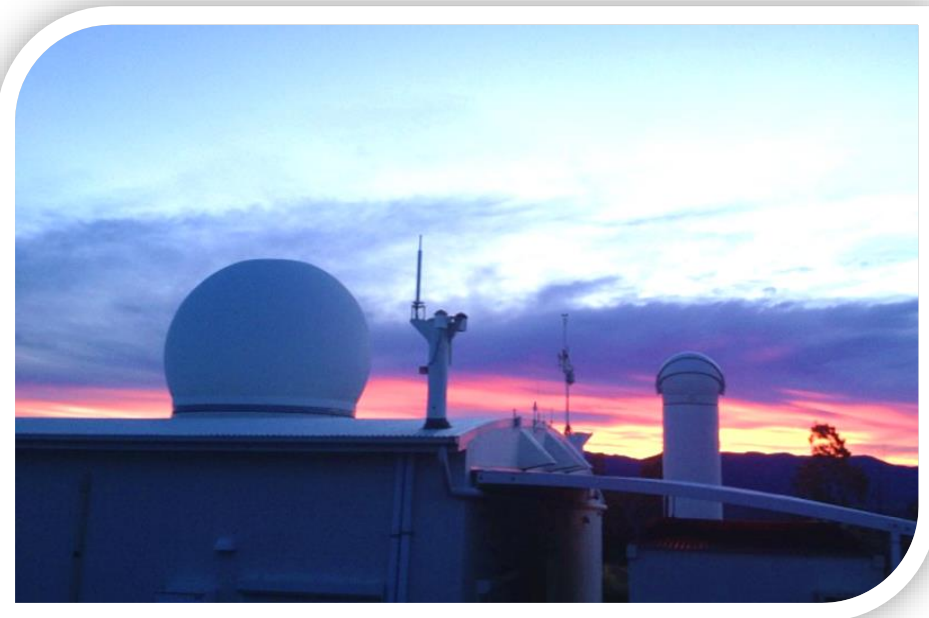

Study at your preferred Australian university, supported by the Space Environment Research Centre (SERC).

SERC is keen to support students in diverse fields of study at any Australian university.

SERC is offering a range of scholarships for exceptional students enrolled in undergraduate (4th year), HDR and Masters courses.

Scholarships include the option to apply for exciting short-term placements at Australian and international space research centres and to apply to attend international conferences.

Visit serc.org.au/students to find out more or to download an application form today!

Scholarship opportunities are available for study in a range of different fields, including:

- Mathematics
- Engineering
- Physics
- Dynamic database management
- Adaptive optics
- Astrodynamics
- Atmospheric sciences
- Geodesy
- Astrophysics
