

INTERNSHIP OPPORTUNITIES AT THE AITC

The Advanced Instrumentation and Technology Centre (AITC), has teamed with a range of industry partners to offer some exciting opportunities for undergraduate students studying engineering, science, computer science or mathematics.

A maximum of 6 positions are available in 9 different projects for the following disciplines:

- Adaptive Optics
- Instrumentation
- Space

Further information and project descriptions are available on the RSAA website

<http://rsaa.anu.edu.au/study/undergraduate-research> (go to AITC internships tab at the top of the page)

This program is supported by: Northrop Grumman; Aerospace Concepts; EOS Space Systems; the Space Co-ordination Office; the Space Environment Research

Centre; and the Canberra Deep Space Communication Complex.

In addition to the specified project, all interns will participate in activities that develop their professional skills and expand their understanding of the Australian Space Industry, including:

- A tour of the AITC and EOS Space Systems
- A practical introduction to Systems Engineering, Project Management and Risk Analysis from Aerospace Concepts
- A day with the Space Co-ordination Office and Geoscience Australia to understand the role of government
- A tour of the Canberra Deep Space Communication Complex
- Expert speaker program
- Production of a final report
- Presentation of findings at an RSAA *Feast of Facts*

These positions are highly competitive and reward students who demonstrate a combination of technical excellence,

professionalism and initiative within a team environment.

Internship dates: 21st November - 20th January (excluding 24th December – 1st January)

Transport & accommodation will be the responsibility of the student. Positions are unpaid.

To apply: please send the following documentation to aitc@anu.edu.au before Friday 23rd September:

- A completed application form
- The details of two referees
- Academic transcript
- Curriculum vitae
- A statement identifying your relevant skills and attributes for the project and what you expect to gain from the internship.

If you wish to apply for more than one project, please submit a separate application for each project.
